## **VOLCLAY WATERSTOP-RX® LEED™ PRODUCT INFORMATION**

Volclay Waterstop-RX, concrete joint waterstop material consists of natural sodium bentonite and butyl rubber compound. Waterstop-RX provides reliable, cost-effective water infiltration protection at concrete joints and contains no Volatile Organic Compounds (VOCs). Waterstop-RX does not contain any polyvinylchloride (PVC).

### **MANUFACTURING LOCATION**

CETCO certifies that Waterstop-RX is manufactured in Evansville, IN and Fairmount, GA. If your project falls within a 500-mile radius of these locations, the product is considered to be a locally produced material and can help contribute to earning Materials & Resources - Credit 5.1.

### **RECYCLED CONTENT**

CETCO certifies that Waterstop-RX is manufactured with a minimal percentage (< 3%) pre-consumer material recycled content from ordinary recovery of raw materials in the manufacturing processes. Please note that this recycled content figures are not absolute. Day to day variations in manufacturing operations will result in minimal variations from the above listed figure. The product's recycled content from manufacturing raw material recycling process, Waterstop-RX can help to contribute to earning Materials & Resources - Credit 4.1.

### **VOC CONTENT**

CETCO certifies that Voltex contains 0 g/L Volatile Organic Compounds (VOCs).

CETCO is committed to the use of recycled content in the manufacturing of Volclay waterproofing products and supports the United States Green Building Council (USGBC) by participating as an USGBC Industry Member.

Sincerely,

A handwritten signature in black ink, appearing to read 'Stacy Byrd'.
